

1. Compute the frequent itemsets and the strong association rules for the below dataset by assuming the support threshold of 3 and confidence of 70%.

Transaction ID	Items	Ordered-Item-Set
T1	{E,K, M,N,O,Y}	{K,E,M,O,Y}
T2	{D,E,K,N,O,Y}	{K,E,O,Y}
T3	{A,E,K,M}	{K,E,M}
T4	{C,K,M,U,Y}	{A,E,K,M}
T5	{C,E,I,K,O,O}	{A,E,K,M}

2. Compute the frequent itemsets and the strong association rules for the below dataset by assuming the support threshold of 4 and confidence of 60%.

Transaction ID	Fruits Purchased
T1	Apple, Banana
T2	Cherry, Apple
T3	Banana, Cherry, Date
T4	Apple, Date, Fig
T5	Banana, Cherry
T6	Apple, Banana, Date
T7	Cherry, Fig
T8	Banana, Apple
T9	Cherry, Date
T10	Apple, Banana

3. Compute the frequent itemsets and the strong association rules for the below dataset by assuming the support threshold of 50% and confidence of 60%.

Transaction ID	List of items
T1	I1,I2,I3
T2	I2,I3,I4
T3	I4,I5
T4	I1,I2,I4
T5	I1,I2,I3,I5
T6	I1,I2,I3,I4
